SUMMARY

Frontend-focused Software Engineer specializing in React.js and modern JavaScript, with hands-on experience building responsive, production-grade web applications using HTML5, CSS3, Firebase, and Firestore. Skilled in REST API integration, Git/GitHub workflows, and deploying scalable applications on Vercel. Built and shipped Knowora, a full-featured sports matchmaking platform, demonstrating strong ownership of the frontend engineering lifecycle from architecture to deployment. Strong problem-solver with a track record of writing clean, maintainable code and collaborating effectively in team environments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, Java, C/C++, SQL
Frontend Development: React.js, React Hooks, Context API, HTML5, CSS3, Responsive Web Design, Cross-Browser Compatibility
Backend / Data: Firebase, Firestore, Firebase Authentication, REST API Integration, JSON
Tools & Platforms: Git, GitHub, VS Code, Vercel, npm/yarn, Postman
Core Concepts: REST APIs, Object-Oriented Programming, Data Structures & Algorithms, Agile/Scrum, Debugging & Performance Optimization, Problem Solving
Soft Skills: Team Collaboration, Communication, Ownership Mindset, Time Management, Adaptability

EXPERIENCE

Software Developer Intern **Jun 2026 – Present**
W3villa Technologies *Noida, India*

- Develop and maintain responsive user interfaces with React.js, JavaScript (ES6+), HTML5, and CSS3 for production web applications.
- Build reusable, component-driven UI modules that improve development speed and code maintainability across projects.
- Debug and optimize application performance, identifying and resolving UI and rendering issues to improve user experience.
- Integrate REST APIs to connect frontend interfaces with backend services and data sources.
- Collaborate with the engineering team using Git/GitHub workflows for version control, code reviews, and feature delivery.

PROJECTS

Knowora – Sports Matchmaking Web Platform React.js, Firebase
React.js · JavaScript · Firebase · Firestore · Vercel · OpenStreetMap · Razorpay (Test Mode)

- Architected and built a full-stack React.js platform enabling users to discover, create, and join sports matches in real time.
- Implemented secure user authentication and profile management using Firebase Authentication and Firestore.
- Designed a social layer with friends/follow system, leaderboards, and achievement badges to drive user engagement.
- Built wallet and credits functionality with Razorpay test-mode payment integration for in-app transactions.
- Developed location-based match discovery using OpenStreetMap and geolocation APIs for real-time proximity search.
- Designed a fully responsive, mobile-friendly UI and deployed the production build on Vercel.

Live Demo: https://knowora-app.vercel.app/

EDUCATION

B.Tech, Computer Science Engineering **Aug 2023 – Mar 2027 (Expected)**
Vishveshwarya Group of Institutions (VGI), AKTU *CGPA: 7.0+*

Class XII, CBSE
New St Mary Global School *60%*

Class X, CBSE
New Children Inter College *72%*

CERTIFICATIONS

Introduction to Natural Language Processing — AnalytixLabs, 2026 • Advanced Excel — Microsoft, 2024 • Frontend Development — Innovation, 2024
Big Data Fundamentals — CDAC, 2024 • C/C++ Programming — IIT Bombay Spoken Tutorial, 2023

ACHIEVEMENTS

- Independently conceptualized, designed, and shipped **Knowora** end-to-end, a production-grade full-stack platform, taking full ownership from system architecture through live deployment.
- Built a reusable component library for team projects at W3villa Technologies, reducing UI development turnaround time and improving code consistency across features.
- Completed 5 industry-recognized certifications spanning NLP, Big Data, Advanced Excel, and Frontend Development, reflecting continuous learning across the software engineering stack.
